SUMMARY

MCA graduate (2026) with hands-on experience in Python and Django development through a 3-month internship. Skilled in Python, Django, SQL, MySQL, SQLite, REST APIs, CRUD operations, Object-Oriented Programming and MVT architecture. Experienced in developing database-driven web applications, implementing authentication and role-based access, debugging and testing applications, and using Git for version control. Familiar with MERN stack technologies and full-stack web development concepts. Seeking an entry-level Python Developer role to apply my backend development and problem-solving skills.

PROFESSIONAL EXPERIENCE

- **Ziuke InfoTech**, Thrissur, Kerala: Python Django Web Developer Intern Jan 2026 – Apr 2026
 - Developed web application modules using Python and Django following the MVT architecture.
 - Implemented CRUD operations, Django models and database-driven application workflows using SQLite.
 - Worked with Django views, templates, forms and models to implement application functionality.
 - Implemented user authentication, form handling and role-based application workflows.
 - Developed responsive web interfaces using HTML5, CSS3 and JavaScript and integrated them with Django backend modules.
 - Performed debugging, testing and troubleshooting of application issues and implemented fixes based on functional requirements.
 - Used Git for version control and collaborated with developers during development, testing and deployment activities.

ACADEMIC PROJECTS

- **NeuroInsight – Healthcare Management & AI-Assisted Web Application**
Python | Django | MySQL | AI / Deep Learning
 - Developed a Django-based healthcare application connecting Doctors, Lab Assistants and Patients through role-specific modules.
 - Implemented authentication and role-based access control for different users.
 - Developed Doctor functionality for managing assigned patients, requesting laboratory tests and viewing patient information.
 - Developed Lab Assistant functionality for managing assigned tests and uploading laboratory reports for Doctors and Patients.
 - Implemented Patient features for viewing reports, setting health reminders and recording daily health information.
 - Integrated a ResNet18 CNN-based AI component for brain-image analysis and prediction.**Tech Stack:** Python, Django, MySQL, HTML, CSS, JavaScript, ResNet18, CNN
- **DIGIEAT – Restaurant Management System**
Python | SQLite | Android
 - Developed a restaurant management system combining a Python-based web application with an Android mobile application.
 - Implemented separate roles for Head/Chief, Admin, Waiter and Customer.
 - Developed modules for menu management, food ordering, order tracking and billing.
 - Implemented database-driven functionality for managing users, menu information and restaurant orders.
 - Used SQLite for data storage and developed role-specific interfaces for different users.**Tech Stack:** Python, Android, XML, SQLite

- **Placement Training Portal**

Full-Stack Web Application

- Developed a full-stack web application to help students prepare for placement examinations.
- Implemented authentication and authorization for students and administrators.
- Developed an interactive MCQ system with automatic score calculation and result analysis.
- Implemented CRUD operations and RESTful APIs for managing questions, users and assessment data.
- Designed database schemas and an administrative dashboard for managing placement content.

Tech Stack: React.js, Node.js, Express.js, MongoDB

- **CINEMAVERSE**

Web Application

- Developed a responsive movie discovery web application using HTML, CSS, JavaScript and Bootstrap.
- Integrated the YouTube API to provide movie trailer streaming within the application.
- Implemented movie search and filtering based on genres and ratings.
- Developed dynamic movie information displays and responsive interfaces for desktop and mobile users.

Tech Stack: HTML5, CSS3, JavaScript, Bootstrap, YouTube API

EDUCATION

Master of Computer Applications (MCA)

Federal Institute of Science and Technology (FISAT)

2024 – 2026

APJ Abdul Kalam Technological University

Bachelor of Computer Applications (BCA)

Mar Dionysius College, Thrissur

2021 – 2024

University of Calicut

TECHNICAL SKILLS

Programming

Python, SQL, JavaScript, C

Databases

MySQL, SQLite, MongoDB

Core Concepts

OOP, MVT Architecture, CRUD, API Integration

Familiar With

React.js, Node.js, Express.js

Backend & Web

Django, REST APIs, HTML5, CSS3, Bootstrap

Tools

Git, GitHub, VS Code

Libraries

NumPy, Pandas, Matplotlib, PyTorch

Mobile Development

Android, XML

CERTIFICATIONS

- **Web Application Development using Django & MySQL** – Fortune IT Solutions
- **Python Programming (PY24)** – GTech
- **Python 101 for Data Science** – IBM Cognitive Class
- **SQL and Relational Databases 101** – IBM Cognitive Class
- **AI Internship** – LinkUrCodes
- **Introduction to Cybersecurity** – Cisco Networking Academy

ACHIEVEMENTS

- Qualified TCS National Qualifier Test (NQT) with 70.57% Cognitive Skills and 90%+ Motivation Traits.
